JUST NATURALS & COMPANY'S NEW WEBSITE IS A MUST SEE!

It's informative, uplifting, educational and a great shopping experience.

Bedford, NH - Just Naturals & Company, based in Bedford, NH, recently launched a new website providing many enhanced capabilities and customer benefits, featuring their award-winning line of natural products: www.justnaturalproducts.com. New educational videos include topics such as natural vs. chemical laundry products, natural vs. toxic cleaners, pure essential oils vs. artificial fragrances, and more.

Benefits of the new website include enhanced shopping capabilities, wish lists, shopping lists, featured products, special offers, an event calendar, an informative blog, and an easy to navigate on-line store. New products are being added monthly.

The Just Naturals product line is widely known for superior-performing, all-natural formulas and signature blends of 100% pure essential oil scents that are infused into all of their bath, body, aromatherapy, cleaning, laundry, baby and pet care products.

Shoppers can experience the Just Naturals product line and smell their unique, therapeutic scents in person at their flagship location at 176 South River Road in Bedford, where they will also find an assortment of organic wines, artisan jewelry and locally made gifts, hats and handbags.

Just Naturals was founded 6 years ago by New Hampshire resident, Karen Girardo after she developed severe allergic reactions to common household cleaning and personal care products. Unable to find effective, non-irritating products, she developed her own line of purely natural, non-toxic products and has enjoyed excellent health since.
